THE HOME OF REAL ENTERTAINMENT

SPECIAL FRIDAY AND SPECIAL SATURDAY “Wonder of Women”

— with —

Lelia Hymans - Lewis Stone - Peggy Wood

The man who directed "The Trail of '98" and "A Woman of Affairs" has now turned out another dramatic sensation from Sudermann's famous novel, "Wonder of Women," the best-selling novel at present time. Clarence Brown production. You'll enjoy it when you see it — don't miss it.

NEXT WEEK'S PICTURES

MONDAY and TUESDAY —

“Jazz Mad”

— with —

Jean Hersholt - Marian Nixon - George Lewis

Oh! Ba-bee! Oh! Bo-yo! Music has a charm—but it gives a man no rest. You'll get a kick out of this one.

WEDNESDAY and THURSDAY —

“The Sideshow”

— with —

Marie Prevost - Ralph Graves - Little Billy

Here it is! The greatest picture of life and love among circus people! The most unique and unusual drama to be presented upon the screen. A drama that is different—something new—thrilling—and tense situations—and smashing surprise climax. You'll like it.

For Good Entertainment, Orpheum is the place to go

VANCOUVER LADY VICTIM OF AUTOMOBILE ACCIDENT

An automobile driven by Mr. Geo. W. Allin, of Vancouver, with his wife and young daughter were covering the circle trip from Vancouver to Calgary, via the Crows' Nest Pass, came to grief at a point about a quarter of a mile west of Furness schoolhouse on Sunday afternoon, when in some unaccountable manner the car went out of control and in swerving on the trail turned turtle on the highway into the ditch, landing right side up. Mr. Allin and his daughter escaped physically unharmed, but Mrs. Allin was knocked into unconsciousness.

Passing cars stopped and offered assistance, and medical aid was summoned from both Blairmore and Bellevue. Dr. Reinhorn, of Bellevue, soon appeared on the scene and at once realized that the woman's condition was serious, and ordered her removal to his hospital at Bellevue, where all possible was done for her, but in spite of all that medical science could offer, she passed away at an early hour on Monday morning.

Mrs. Allin was about 50 years of age and is survived by her husband and daughter, with whom she had undertaken the holiday trip. At no place along their journey had they attempted to travel at an excessive speed, but fate had willed that the journey should so end.

The remains were conveyed to Blairmore where they were prepared for burial, and were shipped to Calgary by Tuesday morning's local, where interment would take place on Wednesday afternoon.

Mr. and Mrs. Allin were frequent visitors through The Pass and great sympathy is expressed at this time. Their son met death rather tragically but a few months ago.

The car in which they were traveling, a Franklin touring, is considerably damaged and is being repaired at the garage of the Crows' Nest Pass Motors.

Mr. Allin and daughter accompanied the remains of Mrs. Allin to Calgary. They will return here later to continue by auto to the coast.

LORD BISHOP OF WIN.—
CHESTER AT CALGARY

On Sunday evening next, Sept. 22, a special service will be held in the Victoria Park arena, in connection with the provincial synod of the Church of England.

The preacher on this occasion will be the Rt. Rev. Frank Theodore Woods, Lord Bishop of Winchester, England.

The Primate of the Church of England in Canada, the Most Rev. S. P. Matheson, Lord Archbishop and Metropolitan, will preside, and most of the bishops and many of the clergy of Rupert'sland will be present.

The service will be broadcast by CFAC, and a radio will be installed in St. Mark's Church of England, Innisfail for the occasion.

An invitation is extended to everybody to attend this special radio service, commencing at 7:30 o'clock Sunday evening, September 22nd.—Innisfail Province.

Rev. Roy C. Taylor, for the past two years popular pastor of the United church at Hillcrest, will tomorrow night be inducted as pastor of First United at Lethbridge. Following the induction ceremony, a reception will be extended Rev. Taylor and his family.

Duck shooting opened with an occasional "bang" on Monday morning. Very few good bags have been taken, accounted for by the fact that most of the sloughs are dried up, compelling the birds to make long flights to large lakes, where they are practically safe.

WEST CANADIAN GLEE CLUB ORGANIZED

On Tuesday night of this week, an enthusiastic group of local singers gathered at the United church and gave birth to a male voice choir, to be known as the West Canadian Glee Club.

The officers of the new organization are as follows:

Chairman—Mr. Harry Blake.
Sec-Treas.—Mr. T. J. Williams.
Music Committee—Messrs. S. G. Bannon and J. R. Gresham.
Conductor—Mr. Arthur J. Hadwell.
Pianist—Mr. Harold Marks.

As the party will be limited to some extent at present, with expectation of attaining a larger choir at a future date, everybody interested are invited to attend the first practice which will be held tomorrow (Friday) night in the United church at 8 o'clock.

Practices are set for Friday nights at 8 o'clock and Sunday afternoons at 3:30.

FIRST AID CONTESTS SATURDAY OF NEXT WEEK

The annual contests in mine rescue and first aid will take place on the Blairmore grounds on Saturday of next week, coupled with a demonstration of mine rescue apparatus.

At 5:30 p.m., Hillcrest and Bellevue football teams will play, the proceeds to be handed to John Milnes, of Bellevue, until recently one of the leaders in first aid work, but who is now unable to follow any employment.

The contests commence at 8:30 a.m. sharp. M. H. Congdon, of Blairmore, is secretary.

SUN LIFE STOCK GOES UP

BOSTON, Sept. 10.—Known as the largest investor in the world, Sun Life Assurance Co., of Canada, deserves further recognition as one of the shrewdest. Common stocks purchased by Sun Life during 1928 have already enjoyed large appreciation. In fact, a list of the more important blocks of common stock bought by the company last year at a total cost of \$60,500,575 (as reported by Kimber Record) have a current value of \$95,309,046, a gain of well over 50 per cent.

Aided by Canadian law, which permits investment of insurance company funds in common stocks, Sun Life in recent years has placed an increasing proportion of its money in equities. Of investment of \$130,547,690, last year \$97,172,925 was in common stocks, \$21,844,209 was bonds and \$11,530,556 was in preferred stocks. Most of the bonds, furthermore, were acquired through Sun Life's purchases in January, 1928, of Western Union Life, and the great majority of these were resold in the year. Thus Sun Life largely confined already, despite the fact that stock prices in general were on a very high level last year, measured by previous experience.

Whereas the company, last year, sold several million dollars' worth of bonds and preferred stocks, its sales of common stock were few, being confined to the following: 2,939 shares of American Radiator, 16,500 shares of General Electric, 447 New England, 9,000 shares of Chase National Bank have advanced from \$663,763 to \$1,733,000 and 15,900 shares of National City Bank have advanced from \$2,444,756 to \$6,360,000.

Mr. C. J. Tompkins, local representative of the company, has been due to arrive from the convention held in Boston. Mr. Tompkins is accompanied on the trip by Mrs. Tompkins and before returning to the west they will visit their old homes in Cape Breton.

Yesterday Fernie citizens voted 3 to 1 in favor of establishing an air port at that point.

WORLD HAPPENINGS
BRIEFLY TOLD

Hon. R. B. Bennett, leader of the Conservative opposition at Ottawa, was elected president of the Canadian Bar Association, succeeding the Hon. Wallace Nesbitt, K.C. of Toronto.

According to Assessment Commissioner Farley, the population of Toronto this year showed an increase of 20,742, as compared with 1928. The figures are: 1929, 606,370; 1928, 585,628.

Five thousand tons of anthracite from the Cossack River Coal Mining section, the first coal from Soviet Russia to be imported at Halifax, was landed here from the British freighter, "Blairathol," which arrived from Merupol, Russia.

Owing to the recent Canadian order against the importation of Scottish cattle, British United Press understands that the Prince of Wales has been prevented from shipping to his Alberta ranch some recent purchases of pedigree Ayrshire cattle.

Coal, one of the few minerals which new Ontario's wealthy mining fields had long failed to show, has been discovered in vast quantities on the Abitibi River, 90 miles north of Cochrane. Premier Ferguson announced this morning.

Hon. W. L. Mackenzie King, Canadian Prime Minister, is expected to make a tour of the West and British Columbia during October. Hon. Dr. J. H. King informed the committee of the British Columbia Liberal Association at Vancouver.

The government crop report issued by the Dominion Bureau of Statistics estimated the wheat crop for all Canada at 293,792,000 bushels. The crop last year was 568,726,000 bushels, which was a record crop for this country. The estimate for the three prairie provinces is 269,471,000 bushels. Last year the prairies produced 544,988,000 bushels.

Death Dealing Toxin

Dreadful Possibilities Of Use In Warfare Is Explained

The dreadful possibilities of a certain death dealing toxin in war time was mentioned by Professor Leonard Hill in an address to the Sanitary Inspectors' Association, at Lowestoft, England.

Professor Hill called attention to "a certain bullet which shall be nameless, but is easily cultivated. If man were as susceptible as guinea pigs are to the toxin produced by this bacillus and there is reason to think they are, it would appear that one gramme, let us say a salt spoonful of the dry toxin would suffice to kill a million persons."

Professor Hill said that the toxin acted if inhaled or if it touched the eye as a powder. He asked the association members "if men set out to prepare such a toxin and to scatter it by aeroplanes, what would be the use of the panoply of war?"

Dear Fruit

It is estimated that Eastern Canada's apple crop this year will be about 2,420,000 barrels, compared with 1,750,000 last year. Perhaps this fall it may be possible to buy two apples for five cents in a shop, instead of having to pay five or 10 cents each for them. — Montreal Gazette.

If drivers would only get it into their heads that it is the wrecker's driver that we want instead of the reckless driver, all would be well on the King's highway.

Radium salt, worth \$500,000, would not fill a teaspoon.

A Severe Attack of Dysentery Checked by 4 Doses

Infra-Red Rays

Can Be Used For Penetrating the Deepest Fog

Infra-red rays, the "invisible light" with which the camera peers far into impenetrable fog, now brings to view tiny, living objects that hitherto escaped detection by the microscope. Use of these rays in medical photography was described to the thirteenth International Physiological Congress at Harvard Medical School by Ivan Bertrand and L. Justin-Besancenot of Paris, France, and is a longer wave length than red, the most lengthy visible ray. It is an interesting step between light and heat.

The Frenchmen exclude all visible light from the photographic plate which is especially sensitized to the infra-red emanations. They said that because of the extra length these rays penetrate into and reveal some of the outer portions of living cells. They described "photography in a kidney study that revealed organs entirely missing in the microscopic examinations by the eye."

Passing Of a Pioneer

C. V. Alloway, Of Winnipeg, Dies After Lengthy Illness

Charles Valentine Alloway, pioneer citizen of Winnipeg, who came west with the Wolseley expedition in 1871, to check the Riel Rebellion out breaks in Manitoba, and remained to become one of the city's best known residents, died recently in Winnipeg, following a lengthy illness. Mr. Alloway had travelled extensively through northern sections of the west and at one time was within sixty miles of the Arctic circle. He was one of the earliest visitors to Churchill, Man., and several years ago predicted that the Peace River in Alberta, would see heavy farm settlement.

Born in Ireland, Mr. Alloway came to Canada with his parents in infancy. He lived at Hamilton, Ont., from 1855 to 1871.

REPRESENTATIVE HEALTH EXHIBIT

The most representative health exhibit ever shown in Canada was a recent feature of the Canadian National Exhibition, when the Ontario Government provided space in its excellent show for leading voluntary health societies. Above is shown the Canadian Social Hygiene Council booth designed by Dr. C. P. Fenwick, of Toronto. Other agencies given space by the government were the St. John Ambulance Association, Victorian Order of Nurses, Child Welfare Council and the Red Cross.

Visit Of Sir John Martin-Harvey

Again Coming To Canada With Three Well-Chosen Plays

Who will ever take the place Sir John Martin-Harvey has won for himself in his many visits to Canada? The thought arises from his announcement that on this tour, during which he will be seen at The Grand Theatre, Regina, on November 4, 5 and 6, he will make his farewell appearance as Sidney Carton in "The Only Way." In this role, in this splendid drama, Sir John has built up through many years a reputation that is probably unique in stage history. To the confirmed theatregoer the final speech of this well-known character is probably as well known as the soliloquy of Hamlet, and because Sir John brought his great gift of art to a part that could be less than mediocre in the hands of an actor of ordinary rank and merit. It is truly to be regretted that Sir John has decided to end Sidney Carton, for even if it is as there is unlikely to be anyone in this generation who will revive the role to the satisfaction of those who have seen the greatest of Sidney Cartons.

Sir John has made another of his surprising moves in adding for this tour "Rosemary" to his repertoire. This rare piece is a romantic drama of 1837, that makes an appeal to everyone. The play presents the story of the wholesome love of Sir Jasper Thondyke, 40, for a young girl. It is full of humor, pathos, and the general beauty that it represents. As Sir Jasper, Sir John Martin-Harvey is seen at his best.

For the third play on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf." From the pen of Angel Guimera, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tours. He takes the part of Manelich, a shepherd of the mountains. The play has been translated into twenty-one languages, and so powerful an appeal has been made by Manelich to the Spanish people, that they have erected a statue to him in Barcelona. In Spain he holds rank with Hamlet. This will be the first time an epochal Spanish play has been seen here, and it should prove one of the most interesting plays in the career of Sir John, in which Sir John has ever appeared. For his present tour he has engaged a splendid company, and if it should be a farewell visit it will be one long remembered.

Forest fires in Canada are, to an increasing extent, being fought by specially designed apparatus. Light gasoline fire-pumps have been put into use which will deliver a forceful stream of water through half a mile of hose. Fighting the fires at night is also greatly expedited by the use of lamps similar to those used by miners, which are attached to the worker's cap and so enable him to keep on working during the hours of darkness at the very time when his work will have the greatest effect.

Impatient Customer: Well, waiter, I suppose I can sit here until I starve?

Waiter: Sorry; no sir. We close at eleven.

There are about 25,000 Mohammedans on the North America continent.

Willesden Magistrate: What is his occupation?

Witness: A married man living apart from his wife.

Recipes For This Week

(By Betty Barclay)

PRUNE JAM

2 cups prunes.

4 oranges.

1 cup sugar.

½ cup water.

Wash prunes and cut pulp from stems. Put pulp through a food chopper. Peel oranges and cut in small pieces. Mix all together, add sugar and water; cook slowly until thick. Turn into sterilized glasses and when cool cover with paraffin.

JELLED CARROTS AND PEAS

1 package lemon flavored gelatin.

1 cup boiling water.

½ cup evaporated stock or cold water.

3 tablespoons vinegar.

½ teaspoon paprika.

1 cup cooked carrots, diced.

1 cup peas.

Dissolve gelatin in boiling water. Add vegetable stock or cold water, vinegar, salt, and paprika. Chill. When slightly thickened, fold in carrots and peas. Turn into molds. Until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serves 8.

Southern Alberta Irrigation

In southern Alberta there are now ten large irrigation projects in operation comprising an area of slightly more than one million acres susceptible of irrigation from the 5,500 miles of canals and ditches already constructed.

Every two years a whale travels about 25,000 miles — the distance around the world — and experts say.

Over 100 different languages are spoken in India.

Want To Go To Churchill

Government Besieged With Requests From People Who Have Heard

The Call Of The North

The north is strong in the hearts of Canadians. Anyone doubting this should see the correspondence pouring in on the Department of Railways and Canals, asking to be allowed to go to Churchill. The floor of requests started when news item announced that it might be possible trains would be running into that port by the end of the month.

It is rather embarrassing to the department, because at the present the only buildings at Churchill are those to the house men engaged on the dredging and the railway construction. The only food supplies come from those belonging to the government.

Hon. C. A. Dunning, minister of railways, announced that his department was preparing a statement which will be published soon explaining the whole situation there.

Winter Fair Building

\$100,000 Winter Fair Building To Be Erected At Saskatoon

Plans for the \$100,000 winter fair building to be erected at the exhibition grounds at Saskatoon, were approved by the building committee, and tenders will be called for immediately.

The cost of the structure is being taken care of jointly by the provincial and federal departments of agriculture and of the city.

The building which will compare favorably with any of its kind in the west, will be 200 feet by 160 feet, and the front elevation 42 feet. The sides of the main arena will seat 4,000 people, and the central portion, which can be pressed into service for conventions, will hold an additional 3,000.

MALACHI FORETELLS A NEW DAY

Golden Text: "Behold, I send my messenger, and he shall prepare the way before Me." — Malachi 3:1.

Lesson: Malachi 1:1 to 4.

Devotional Reading: Isaiah 11:1-10.

Explanations and Comments

The Coming Of The Lord In Judgment, verses 1-6. In the preceding paragraph we represented the picture which we depicted, that is, the wicked please God, that God is not just in prospering them while they, the righteous suffer. "Where is the God of Justice?" they ask. Now we must meet the question, "God is not just in prospering them while they, the righteous suffer." As to applying to them and encouraging them with a message of hope, "Behold, I send my messenger." The word "messenger" means "one who has a message to be delivered." This is probably becoming the title of the book because of its use here in this verse.

"He will prepare the way before Me." Recall our lesson from last week, in which we learned that the statement is thought to be borrowed, Zechariah (8:3), that had promised that Jehovah would come to His temple, and our people assumed that He, the messenger, was the covenant, who is part of the covenant or agreement with His people. His people, Jesus, the Jewish people, Jesus, the people of the Bible. Towards this point the aspirations of the prophets and the poems of the psalmists were directed as the heralds of the dawn. From this point a new day began to flow silently over the world, a day of faith and freedom, a day of hope and love. When Jesus came into the world, he brought man into human life and the clear light that has flooded softly down from the manger-cradle in Bethlehem to the dawn. From this point a new day began to flow silently over the world, a day of faith and freedom, a day of hope and love. When Jesus came into the world, he brought man into human life and the clear light that has flooded softly down from the manger-cradle in Bethlehem to the dawn. From this point a new day began to flow silently over the world, a day of faith and freedom, a day of hope and love. When Jesus came into the world, he brought man into human life and the clear light that has flooded softly down from the manger-cradle in Bethlehem to the dawn. From this point a new day began to flow silently over the world, a day of faith and freedom, a day of hope and love. The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, the singing waiter and song writer at Blacque Joe's New York night club, is discovered by Marlene, the Broadway actress, and producer. Al insists on helping Molly, the ballad singer at Blacque's, because he loves her. Molly marries him, not loving him, and he pulls her into the audience of the "Merry-Go-Rounders."

Then, with a proud gesture, he indicated Molly. Rousing applause was the answer of the crowd—a tribute to the girl's popularity. But Al raised his hand.

"Wait, folks!" he cried. "You ain't heard nothin' yet."

He seized Molly's hand and pulled her reluctantly to her feet. While she stood unwilling and bowing to the audience he continued:

"And for the benefit of those of you who don't know it already, I want to say that Miss Winton is in private life, my wife! Tonight we are celebrating the third anniversary of our marriage—and I want you all to congratulate us and be happy with us."

With that, Al suddenly slipped his arms about Molly, drew her close and kissed her. The roar of applause was deafening, twice the volume Molly received by herself. As she stood, with Al's arm around her waist, bowing again and again, there were insistent cries from the crowd that she give them a song. Molly nodded amably.

"Will you sing for them, honey?"

"I don't mind."

Al tucked his arm comfortably around Molly's waist and led her toward the ornate platform. The crowd watched silently, giving her every attention. At the table she had sat at, John Perry sat with his elbow on the table and his chin in his cupped hand, staring after her retreating figure. A vague smile played across his features. When the song was finished and Molly returned, Perry rose and said:

"That was splendid, Molly! I never heard you in better voice. You held them in the hollow of your hand."

"Thank you, John," said Molly quickly, but with pretended indifference. Then she turned to Al: "Can you sit down and stay with us a while. Must you always be circulating among the customers?"

"I'll be back in a moment," whispered Al. "You know I want to be with you every moment I can. But, after all, I'm master of ceremonies."

"Awfully good of you, old man, to take care of Molly while I'm working."

Perry had turned away to see if any vestiges of Molly's face powder still remained on his coat. Satisfied that he was safe, he turned his coat, hat and stick over to a check girl and acknowledged Al's thanks with an evening of sincere cordiality.

They passed into the main dining room, Al leading the way. As they moved toward the round table, he withdrew and conversed with the hostess at the ornate platform. The crowd watched silently, giving her every attention. At the table she had sat at, John Perry sat with his elbow on the table and his chin in his cupped hand, staring after her retreating figure. A vague smile played across his features. When the song was finished and Molly returned, Perry rose and said:

"That was splendid, Molly! I never heard you in better voice. You held them in the hollow of your hand."

"Thank you, John," said Molly quickly, but with pretended indifference. Then she turned to Al: "Can you sit down and stay with us a while. Must you always be circulating among the customers?"

"I'll be back in a moment," whispered Al. "You know I want to be with you every moment I can. But, after all, I'm master of ceremonies."

"Oh, Al, this is wonderful of you!"

With eyes sparkling she tenderly

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which is the best acid neutralizer in Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless to the stomach and its action is rapid. You will note that the crude methods, never continue to suffer, when you learn how quickly, how pleasantly this quicker method acts.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Molly shrugged her shoulders as he moved off. She had made her play for him to stay, but she was pleased he had gone off. Now she could talk to John.

"And you say you need him!" came Perry's whispered exclamation across the table.

"What do you mean?"

"Well, you heard the applause you got. You don't need him at all."

"Sh!" Molly drummed on the table-top without further words. The pink, polished nails of her white, bejeweled fingers went up and down with increasing impatience. Too many rings and thin skin showed the many glittering gems to be in the best of taste! How stridently they proclaimed her wealth and success! Molly glanced down at the brooch Al had just given her, as it rested against the satin bodice of her gown. A few days before she had mentioned casually that she wanted a new brooch. Now—presto! It was hers!

But now, a few moments after Al had given it to her, it became just another costly ornament to add to her rich collection; the significance of the gift was lost on her.

A half hour passed, and Al returned to the table. Another half hour, and John Perry rose to go.

"Fraid so," John answered. Now he was the one who thought of caution; he wished she wouldn't show her feelings so plainly before Al.

"Why?" she insisted. "I thought you'd run home with us for a while."

"Well, it's late for one thing. Besides, John, this is your anniversary. I know you'd all want some time alone together."

Perry spoke with the utmost gravity, but Molly thought she detected a sardonic gleam in his alert eyes. He was making fun of Al, and of her, too! For a moment she hated him for it.

But a moment later, when Perry had gone, she hated Al for creating the situation. Her thoughts, which had been bewildered, turned bitter. Anniversary indeed!

The Rolls-Royce sped rapidly toward home, with Molly keeping silent the whole way. Al, believing she was tired, remained mum, too, out of deference to her mood. When they entered the reception hall of the apartment Molly curiously dismissed the maid and Al rushed off to the nursery, to see if Junior was sleeping.

The eyes of the young song-writer lit up with love for his baby son as he tip-toed across the nursery floor and surveyed the child, tucked safely away in bed. What a relief! Junior made his mass of curly hair wavy dog-nestled beside him on the pillow.

As Molly entered she was struck by the scene. The expression on Al's face told more plainly than words his complete love and utter devotion to Junior. For a moment she remembered her behaviour of the evening and a throb of insidious guilt shot through her. She was unworthy and she couldn't hide it from herself. Only a great, unselfish love could give Al's face the expression of radiance it held now. She knew she could not achieve such a love; and suddenly the realization brought a surge of furious anger within her.

(To Be Continued.)

Migrating Birds

Long Flights By Birds Are Revealed By Leg Banding

Migrating birds have been demonstrated as flight variants by the United States Bureau of Biological Survey, which directs the work of 1,400 amateur ornithologists; the latter specialize in leg-banding. While the average feathered traveler maintains approximately uniform speed and range, now and then a Lindbergh of the species breaks records. In three months a leg-banded Arctic tern from Baffin Island, Labrador, Nafal, East Arctic, which, in a straight line, would be 10,000 miles. A robin winged from Crystal Bay, Minn., to Pachucha, Mexico (2,100 miles), in eighteen months.

Fallacies About the Moon

When Not Visible Native Say It Has Headache

The Dakota Indians think that the moon at its waning is eaten by mice. The Polynesians believe it is devoured by the spirits of the dead. The Kamiks say that it wanes when the Eskimos are ill, and that it is the cause of their headache. The Indians believe it is due to the heat of the sun.

Travelling Libraries

1,350 Travelling Libraries in Circulation of Saskatchewan

Many applications are received by the Provincial Library at Regina. Applications for travelling libraries, which are supplied to rural districts. The library consists of a stout wooden box about 10 inches deep and two feet square, which holds from 40 to 500 books. When the necessary application form has been filled in and forwarded to the department, usually by some responsible citizen on behalf of a community organization, a library is sent by express charges paid. When all the books have been read by the residents of the district the library is returned. The Government pays the charges one way, and the readers pay the return charges. At the present time there are 62,500 books available and 1,250 travelling libraries are in circulation.

A WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will eat all the time, which is natural and should be satisfied, but she can do much to lessen the severity of these troubles. The mother should be constantly on the guard to prevent childhood ailments, or to cure them as quickly as possible. She can do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets a great help in this regard. Baby's Own Tablets are the safest of all. And we must not so much prepare for eternity as plant eternity in the life of the child with perfect safety. They are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and assist both constipation and indigestion. They are easily digested and absorbed. They are made of pure, natural, easily digestible materials and are safe for all. And we must not so much prepare for eternity as plant eternity in the life of the child with perfect safety. They are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fortune-Teller: You will suffer poverty until you are thirty-five years old.

"And then?"

"By then you will have got used to it."

Dibley: "Did your firm fail to pay its debts?"

Biggs: "No; it failed so that it wouldn't have to pay them."

International Amputation Club

Organization To Unite Under One Banner Proposed In St. Paul

Thousands of Canadian and United States soldiers who lost arms or legs on the battle fields of France, began through representatives at the veterans of foreign wars annual convention in St. Paul, movements toward formation of an international "Amputation" Club.

Robert Morris, of Winnipeg, who lost his right arm in the world war, and his brother, a member of a Canadian "amputee" club of more than 1,000 members, declared that such an organization "might prevent the world from forgetting us."

"We want every Canadian, American, English, French and other allied soldier who lost an arm, leg or eye over there to unite under one banner," Morris said, "and join in the fight now, so we won't be forgotten."

Little Helps For This Week

"In Thy presence is fulness of joy."

Psalm xvi. 11.

Friend of souls! 't is well with me when'er Thy love my spirit charms;

From sorrow's dungeon forth I see;

Amaze me in Thy sheltering arms;

The night of weeping flies away

Before the heart-reviving ray

Of love that beams from on Thy

high throne.

Here is my heaven on earth begun;

Who were not joyful had he won

At once! O God! his joy and rest.

—Wolfgang Dersler.

We can even here be with God, so long as we bear God within us. We should be able to see within ourselves our own way which leads away from the world, and shines a few rays and makes the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and are given to the young and old with perfect safety. They are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fortune-Teller: You will suffer poverty until you are thirty-five years old.

"And then?"

"By then you will have got used to it."

Dibley: "Did your firm fail to pay its debts?"

Biggs: "No; it failed so that it wouldn't have to pay them."

Anglo-American Comity

Close Co-Operation of Britain With America Is Desired

The hesitancy of Prime Minister MacDonald to turn too suddenly from a European outlook to one involving the closest co-operation with America is understandable. But his well-known conviction that British foreign policy should be based firmly upon Anglo-American comity promises an ultimate and definite trend in this direction. If the British Empire and the United States are to become the arbiters of world peace, they must put themselves in a position to dictate the basis of that peace.—Philadelphia Ledger.

Education For Labor

Inauguration Of Workers' Educational Classes Is Advocated In Manitoba

Inauguration of workers' educational classes on lines similar to those which he said were flourishing in Great Britain, Australia, New Zealand and South Africa, was urged by R. J. Hall, of Swanses, Wales, at a conference with prominent Manitoba educationalists, Labor leaders, and government officials held at Winnipeg. Mr. Hall is a promoter of the scheme in the old country.

Hon. R. A. Hoey, provincial minister of education, thought it possible his government might be interested.

Proposed Nicaraguan Canal

The fate of the proposed Nicaraguan Canal, stretching 183 miles through tropical mountains and forests from the Atlantic to the Pacific ocean, will depend on reports from a battalion of 400 soldiers who were recently ordered to duty in the central American jungle to survey the route of the \$1,000,000,000 canal.

Stop Colds with Minard's Liniment.

Use Of Radium

Complete Potency Of Radium As A Cure For Cancer Not Substantiated

Warnings against undue optimism were sounded at the sixth annual meeting of the British Empire Cancer Campaign, presided over by the Duke of York. Sir Thomas Horder, physician in ordinary to the Prince of Wales, and physician to St. Bartholomew's Hospital, in presenting the annual report, said that the launching of the National Radium Fund might create in the minds of many people an unfounded belief in the complete potency of radium as a cure for cancer. Such a belief might have very unfortunate results for the patient in which the growth was completely removable by operation. In the course of time radium might come to equal or even exceed operative measures in efficiency. At present, however, it was the bounden duty of the doctor, in very many cases, in his patient's interest, to overrule the physician in the use of radium. All the cases of cancer to which radium was applicable and the number in which brilliant results were achieved increased every year. But Sir Thomas added that it was open to considerable doubt whether many of the institutions that were advertising for money to purchase radium had upon their staffs men or women qualified to use it. It might even be necessary to employ some of the money collected in providing for such training in the use of a powerful but terrible remedy.—Toronto Mail and Empire.

A Mixed Population

Brooklyn, N.Y., with a population of more than 2,300,000 has residents from every country of Europe and South America, as well as from most parts of the other continents.

Hard and soft corns both yield to Higgin's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

There's just three things that I have never seen, an undertaker's funeral, a colored woman driving a car, and a parrot that could really talk.

An essayist has discovered that two can live on three hundred pounds a year; but he omits to say two what.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I used to sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good job and I feel good and I am in good spirits."—Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.

COWLEY HAPPENINGS

Mr. and Mrs. H. Logan, of Calgary,
were weekend guests of Mr. and
Mrs. Lawrence Peel, of Lundbreck.The Ladies' Aid of the Union
church cleared \$31.00 from serving re-
freshments on school fair day, Sep-
tember the 13th.A new Masonic hall is now under
construction. It will occupy the
same site as the one that was
destroyed by fire a few months ago.The Women's Institute cleared
\$38.10 from serving supper to the
crowd which attended the school
fair dance on Friday night last. The
next meeting of this organization
will be held at the home of Mrs. A.
Botts, on Thursday Sept. 26. A
Basketry Course is planned to be
held here in October by the W. I.Dr. J. S. Hynes has returned to
Clareholm from a holiday trip that
took him as far north as Fort Smith.Rev. Dr. A. H. Denoon, formerly
of Lethbridge, has moved his family
from Westville to Halifax, where they
will in future reside. Dr. Denoon has
retired on the pension list.The new Michel hotel at Michel was
damaged by fire on Saturday morn-
ing last to the extent of about \$8000.The fire is believed to have been the
work of an incendiary.A lump of coal weighing one and
three-quarter tons was taken from
the mine at Mercon recently and will
be used to advertise the McLeod Riv-
er coal in Winnipeg.Blairmore sportsmen who are
crack shots are requested to go to the
Beaver Dam Ranch and shoot
large dogs, medium dogs and small
white ones which come around chas-
ing Mrs. Cameron's pet rabbits be-
tween 11 o'clock at night and 4
o'clock in the morning. When they
shoot them you can take the skins to
ornament their rooms.Our local lumber and general con-
tractor, Mr. C. Sartoris, suffered a
severe loss on Friday night last,
when his camp and timber yard near
McGillivray were swept by fire, be-
lieved to have its origin within the
timber limits. Mr. Sartoris suffered a
similar loss about a month ago at
Hosmer.Blairmore sportsmen who are
crack shots are requested to go to the

SITUATION IN THE HOLY LAND REMAINS ACUTE

Jerusalem. — The dangers of Moors uprising in Syria and Transjordan as a result of the continued Jewish-Moslem rioting in Palestine, remained acute, although the arrival of additional British troops and warships somewhat relieved the tension in the larger Palestinian centres.

Clashes between Arabs, descendants and police in Damascus, many strong demonstrations in Syria and reports of Arab movements in Transjordan added to the disorders, which continued intermittently in various regions of Palestine.

A third French warship has been ordered to Syria, and the French border guard heavily reinforced.

Fighting at Haifa, where Arabs attacked British naval forces was the most serious reported in Palestine. The Arabs were repulsed by the British fire and troops continued their efforts to drive out looters. The non-Jewish quarters of Haifa were fish market, was stoned by a mob at Haifa and killed.

H. G. Sykes, British War Minister, said that the battleship "Barham's" forces were patrolling Haifa, and 16 Jews were killed there, and all Englishmen were armed by the naval officers. About 700 Jews were evacuated from Haifa and concentrated at Jaffa, at the foot of Mount Carmel. Approximately 500 persons were packed in one private house throughout the night.

Authorities apparently were making every effort to avoid the danger of Moslem outbreaks in the areas outside the Palestine borders as the British troops moved to end the disorders in outlying sections of Palestine and to evacuate all residents in danger of attacks.

Liquor Short-Circuiting

Close Co-operation Between Federal and Provincial Authorities In Ontario

Ottawa.—Close co-operation between federal and provincial authorities for the prevention of the short-circuiting of liquor into Ontario was discussed at a conference between Sir Henry M. Sykes, chairman of the Ontario Liquor Commission, and Hon. James A. Robb, minister of finance and acting minister of national revenue here.

At the conclusion of the conference, Sir Henry expressed satisfaction with the conclusions reached. Mr. Robb, in his capacity of minister of national revenue, had given him a very good hearing, said the Ontario liquor board chairman.

In addition to Mr. Robb, Sir H. R. W. Breadner, commissioner of customs, and G. W. Taylor, commissioner of excise, attended the conference.

A World's Record

Saskatchewan University Pullet Establishes New Mark

Saskatoon, Sask.—"Lady Victoria," officially known as "Barred Plymouth Rock Pullet No. 440, property of University of Saskatchewan," has laid her 353rd egg, thus establishing a world's record, surpassing that held by White Leghorn No. 551, belonging to the University of British Columbia, which held the record with 351 eggs in 52 weeks, laying her 352nd the day after the close of the year.

"Lady Victoria" may still beat her own record as her year does not end for some days. The 353rd egg was laid by Professor R. K. Baker on his return from a trip as head of the poultry department to the convention of poultry science held at Alabama Polytechnic, Auburn, Alabama.

Cold Weather Halts Hostilities

Montreal, March 20.—Both Canadian and Russian forces moved along the Manchurian frontier when the winter weather became too severe for the troops to continue their advance. The troops sought shelter from Siberia's cold in the homes of farmers and in settlements along the border region. It was believed the low temperature would decrease the number and intensity of border clashes.

Derby Flier Killed

Boston, Mass.—"Red" Devereaux and his mechanic were killed, and Devereaux' wife was probably fatally injured when the Philadelphia-Cleveland Derby plane, believed to be piloted by Devereaux crashed upon its arrival at the Boston airport. The plane was the second of the derby to reach here.

WINS NOTABLE VICTORY

Hon. Phillip Snowden, British Chancellor of the Exchequer

Route Not Selected

Alt. Mail Route To Coast Awaits Report From Technical Flying Report

Edmonton.—No selection of a through air mail route to the Pacific Coast has yet been made, declared G. H. Herring, of Ottawa, superintendent of air mail service for the Post Office Department, when seen on his arrival from Calgary.

Reports will be obtained from technical flying men dealing with service safety and the route offering the greatest rapidity of operation before anything definite will be selected in connection with the through line, said Mr. Herring.

There has been an impression that the through line was to run by way of Calgary, or that the southern route would be given the initial trial on account of Cannons being selected as the terminus for the service that will open up "by next summer." Mr. Herring said he had been told that Cannons was selected as "it gave these operating the air mail service two hours leeway in making connections with the train for the coast. It was not to be taken as indicating the Department's choice of the final route to the coast, as that has not been considered as yet."

May Not Have Rights

Prince May Not Benefit From Reported Oil Discovery On Ranch

Ottawa.—If the reported discovery on the oil of Prince of Wales Alberta ranch "E.P." is substantiated, he may or may not benefit from the "find" depending upon the action he takes. In a recent interview with a reporter, Mr. Herring said that Cannon was selected as "it gave these operating the air mail service two hours leeway in making connections with the train for the coast. It was not to be taken as indicating the Department's choice of the final route to the coast, as that has not been considered as yet."

The chancery of the exchequer—

—looked tired and frail and anything but victor after the conference

—also got 80 per cent. of his demand for 120,000,000 marks share in unconditional annual payments. This

royal highness referred to the discovery of oil in the neighborhood, but suggested he could not profit since the petroleum and natural gas rights and the mineral rights of the property were vested in the crown.

The mining branch of the Department of the Interior say, however, if such is the case the Prince may, by application to the Dominion lands agent in the district, secure a lease on the petroleum and natural rights on his land.

The title of the "E.P." ranch is an old one, and it is also possible that when he purchased the title he may also have acquired the mineral and petroleum rights. In that event he may benefit from the discovery of oil simply by continuing to pay the yearly rental charge.

Moslem Revolt Serious

British Marines Open Fire In Attempt To Quell Arab Attack

Carlo.—Arabs attacked the suburb of Tulkarem and Jenin, northwest of Jerusalem, and advanced behind intermittent fire according to advices received here from Jerusalem. Ten Jews were wounded in rioting at Belas and nearby points. Police repulsed them. Fighting continued in the western and southern parts of Jerusalem the advice said.

British marines opened fire at Haifa, in an attempt to quell an Arab attack on the Jewish quarter of the city in which many were killed and wounded among both Jews and Arabs, according to reports received here by the Jewish Telegraphic Agency. The marines fired on both the Jews and Arabs, it is stated.

Another report received in Cairo described Jerusalem as being in grave danger, with an army of 2,000 armed Arabs, including Druze tribesmen, marching on the city.

Atoms Added To Radio Noises

Schenectady, N.Y.—To join the vast army of radio performers, now comes atoms. Small matter, to be sure, but nevertheless audible, as was proven in a recent broadcast over station WGY here.

Reporters Of Ontario

Election In November

But Premier Ferguson and Cabinet Members Turn Aside All Queries

Toronto.—The political pot in Ontario has begun to simmer. Rumors of an election this fall are heard on every hand—but Premier Howard Ferguson and members of his Cabinet have, so far, deftly turned aside all queries with non-committal answers.

The present government was elected December 1, 1926, and in the normal course of events would have more than a year's tenure of office assured of it. The government has been asked to state what an election will not be held before the expiration of the regular term—but neither will they say an election will be held.

Hon. W. E. N. Sinclair, Liberal leader, who has been touring various sections of the province, has been predicting an election this fall and has been urging preparedness on the part of local Liberal organizations.

One source has it that an election would be held some time during the first two weeks in November.

Premier Ferguson had no comment to make on this.

VICTORY IS WON BY SNOWDEN AT HAGUE MEETING

The Hague.—The deadlock which has delayed the result of the international reparation conference for three days ended with a victory for Hon. Philip Snowden, British chancellor of the exchequer.

After an eight-hour session, in which delegations of France, Belgium, Italy, Japan and Germany met with the British delegation, Snowden and his colleagues withdrew and evolved a project which was accepted by the other creditor powers a few hours later.

According to the British communiqué announcing the accord, Snowden got 83 1/2 per cent. of the 46,000,000 marks (about \$12,000,000) which he demanded as an increase in Britain's share of the reparations payments. This increase amounts to 40,000,000 marks.

The chancery of the exchequer—

—looked tired and frail and anything but victor after the conference

—also got 80 per cent. of his demand for 120,000,000 marks share in unconditional annual payments. This

royal highness referred to the discovery of oil in the neighborhood, but suggested he could not profit since the petroleum and natural gas rights and the mineral rights of the property were vested in the crown.

The mining branch of the Department of the Interior say, however, if such is the case the Prince may, by application to the Dominion lands agent in the district, secure a lease on the petroleum and natural rights on his land.

The accord marked the end of the hardest fight at any European conference since the world war. It left open, apparently, only the consent of Germany to re-arrange some

small payments and the German

spokesman said that would be forthcoming.

French correspondents described the accord as "complete capitulation to Snowden."

British Marines Open Fire In Attempt To Conquer Namesake Peak

Cincinnati.—Before pulling the ring to open his "chute, Rex Harkay, 23, daring East Liverpool, O., flyer, leaped 9,000 feet here and claims the world's record for delayed parachute jump, having stepped from the plane at a height of 11,800 feet.

Claims Record

Cincinnati.—Before pulling the ring to open his "chute, Rex Harkay, 23, daring East Liverpool, O., flyer, leaped 9,000 feet here and claims the world's record for delayed parachute jump, having stepped from the plane at a height of 11,800 feet.

Settlement For Alberta and Saskatchewan Is Looked For

Edmonton.—Natural resources and the conclusion of negotiations for the transfer to Alberta of its public domain will be up for discussion again some time this fall it is expected by Premier Browne.

Asked as to the present standing of the question, the Premier said that no official communication from the Ottawa Government in respect to a new offer has yet been received, but the provincial government has been given to understand in other

ways that Ottawa's attitude in the

matter will be to extend to Alberta

and Saskatchewan the same plan of

settlement as in the case of Mani-

toba.

To Conquer Namesake Peak

TOURING CANADA

Rt. Hon. L. C. M. S. Amery, former secretary for the Dominions in the Baldwin administration

GIVEN ENTRY RIGHTS

United States Oil Men Are Admitted Into Canada After Some Delay

Ottawa.—A party of United States oil men, including executives and geologists, which was held up at the international border at Sweetgrass, Montana, has been admitted into Canada. W. J. Egan, deputy minister of immigration, stated that the minister of immigration, in exercising his power, under the new "contract labor" order-in-council, had been exercised.

Admission of the "immigrants," who are en route to Alberta to investigate oil areas, was approved after receipt of a communication by the Department of Immigration. By the order-in-council which took effect August 7, entry into Canada of contract labor is forbidden, unless approved by the minister of immigration.

Randolph Churchill, 18-year-old son of Winston Churchill, who is with his father on a tour of Canada. The photograph was taken on his arrival in Toronto.

Proves Northern Air Route Is Reliable

Monoplane Makes Non-Stop Flight Over Klondike Trail To Dawson

Dawson, Y.T.—Completing a non-stop flight of 860 miles from Alaska at the mouth of the Mackenzie River delta in the Arctic, the western Canadian Airways Fokker monoplane equipped with pontoons, arrived here covering the distance in six hours and 45 minutes.

The machine, piloted by S. W. L. Britnell, had as passengers, O. S. Flinck, director of the northwest territories and Yukon, his secretary, G. D. Murphy, L. A. Giroux, legal advisor and mechanic W. S. Trill.

The flight was undertaken by the Dominion government to prove the practicability of testing the reliability of the air route and as part of its scheme to open up air communications with the remote sections of Canada.

The route followed was via McDougal Pass, made famous during the first Klondike gold rush, down the Porcupine and Yukon Rivers to Dawson.

Resources Will Be Discussed This Fall

Six Hours Asked In Resolution To Labor Congress

St. John, N.B.—Six hours for miners to have a resolution by Drumheller, Alberta, local union number 59, which was presented at the opening session of the Trades and Labor Congress, of Canada, here.

The resolution stated that inasmuch as the miners were employed for only five months in the year, that an extensive search for wider markets for Alberta coal had failed miserably and that this had been used as a basis for reduction in miners' wages at Drumheller; they, therefore, urged a six-hour day and a five-day week for all miners in Canada.

Seed Cleaning Plant

Manitoba Is Promised Plant Similar To Saskatchewan

Winnipeg.—Manitoba will shortly have a registered seed-cleaning plant, it was indicated by Hon. W. R. Motherwell, Federal Minister of Agriculture.

"As soon as the Manitoba government are ready, we are prepared to give them a similar service to the one we are providing in Saskatchewan," Mr. Motherwell stated.

Western Creameries Win

Hon. Of Exhibiting Highest Grades Of Butter At Canadian National Exhibition Goes To Manitoba

Toronto.—Western Canada, represented by creameries in Manitoba, won the honor of exhibiting the highest grades of butter at the Canadian National Exhibition. Judging of butter and cheese, principal items in an industry yielding in excess of \$100,000,000 annually in Ontario alone, concluded recently.

George H. Barr, dairy commissioner for Ontario, said he had no excuse to offer for the failure of Ontario entries to outpoint those from the west. He was prepared to take off his hat to the westerners for the quality of their work.

The silver cup for the highest scoring creamery butter was awarded to J. G. Gallagher, Winnipeg.

Saw Decapitates Child

Quebec.—When something went wrong with the mechanical saw Antonio Blouin was operating, the wheel descended on Yvette, his thirteen-year-old daughter, completely cutting off one of Blouin's arms, and partly severing one of his eleven-year-old son's arms. The accident occurred at St. Sebastian, Beauce County.

Mr. Blouin was approached by Hon. William Phillips, United States minister at Ottawa, through Dr. O. D. Skelton, Canadian under-secretary for external affairs. It was announced that Mr. Blouin had informed Mr. Phillips he is deeply conscious of the honor which the President of the United States has conferred and recognizing the responsibility involved has much pleasure in accepting the designation in question.

The International Commission being set up by the United States and Germany, is to have five members, Dr. Peter J. Venot, postmaster-general, and Dr. Georges L. Lachapelle, minister of agriculture, as well as a commissioner from a third country, and then a fifth commissioner is to be named by common consent of the two governments from some third country.

Sleeping Sickness In Japan

Tokyo.—Widespread sleeping sickness with a high mortality rate was reported from the southwestern provinces. There were known to be 202 cases with 73 deaths from the disease, which was believed to be the result of the severe winter. Okinawa was the hardest hit with 113 cases and ten deaths.

Over \$3,000,000 life registered in Sunday Schools throughout the world.

COWLEY SCHOOL FAIR

The School Fair, which was held in Cowley on Friday, September 12th, was a decided success.

The weather was all that was wished it should be on that day and everything went off in fine shape and in good order. In some classes more entries could have been made to advantage while some of the classes were not represented at the fair. Taking the fair in a general way it was well up to its usual high standard and compared well with other fairs of its kind which have been held in the province this fall. There were sixteen schools represented at this fair, one new one being added to the list very recently. Schoolwork, art, cooking, handwork, fancy work, sewing, vegetables, grains, etc., were on display in the I.O.O.F. hall, while the live stock and poultry were placed conveniently in a nearby barn, where accommodations were made for this class of entries. Throughout the day throngs of people could be seen everywhere, and in the evening the hall was crowded to capacity when the elocution and vocal contests took place. The dance which was staged in connection with the fair was very successful.

The Ladies' Aid served refreshments in the Union church, and in this way an added accommodation was at the service of the people which fit in very neatly, as Cowley has been minus a place of eats since the Cowley fire disaster which took place on Feb. 19th last. Pony races, foot races and jumping contests took place on the Cowley recreation grounds in the afternoon. This feature of the day was also well attended.

All entries were judged by competent judges. Mr. Robinson, Mr. Harper and Miss MacIntyre judged from the Claresholm School of Agriculture, while Mr. C. C. Bremner, inspector of schools, judged the school work.

Class 1—Number of entries, 35; 1st, Katie Wilson, Maycroft; 2nd, Irma Wilson, Maycroft; 3rd, Myrtle Lowrey, Coalfields.

Class 2—Number of entries, 33; 1st, Mathias Kropinak, Willow Valley; 2nd, Katie Wilson, Maycroft; 3rd, Lily Kinop, Cowley.

Class 3—Number of entries, 7; 1st, Pauline Leskoek, Firgrove; 2nd, Verone Leskoek, Firgrove; 3rd, Ruth Tench, Tennyson.

Class 4—Number of entries, 19; 1st, Grenive Yagoe, Tennyson; 2nd, Ruby Fink, Tennessee; 3rd, Ross Chiesa, Beaver Mines.

Class 5—Number of entries, 15; 1st, Pauline Leskoek, Firgrove; 2nd, Ruby Fink, Tennessee; 3rd, Mike Taninoff, Lundbreck.

Class 6—Number of entries, 6; 1st, Myrtle Lowrey, Coalfields; 2nd, Ruby Fink, Cowley; 3rd, Dora Day, Cowley.

Class 7—Number of entries, 14; 1st, M. Dlisiatoff, Tennyson; 2nd, Vroni Loskie, Firgrove; 3rd, Pauline Loskie, Firgrove.

Class 8—Number of entries, 13; 1st, Ruth Tench, Tennyson; 2nd, Ruby Fink, Tennessee; 3rd, Steve Taminoff, Lundbreck.

Class 9—Number of entries, 6; 1st, Clarence Burles, Olin Creek; 2nd, Mary Chiesa, Beaver Mines; 3rd, Norma Chiesa, Beaver Mines.

Class 10—Number of entries, 4; 1st, Lawrence Crawford, Olin Creek; 2nd, Rose Chiesa, Beaver Mines; 3rd, M. Chiesa, Beaver Mines.

Class 11—Number of entries, 7; 1st, Vera Truth, Coalfields; 2nd, Alma Ballantyne, Coalfields; 3rd, Mary Wisman, Lundbreck.

Class 12—Number of entries, 2; 1st, Alex. Nicknar, Lundbreck; 2nd, Myrtle Lowrey, Coalfields.

Class 13—Number of entries, 18; 1st, Ruby Fink, Cowley; 2nd, Ross Percivault, Cowley; 3rd, Myrtle Lowrey, Coalfields.

Class 14—Number of entries, 7; 1st, Marcel Percivault, Cowley; 3rd, Ruby Fink, Tennessee.

Class 15—Number of entries, 2; 1st, Ruth Tench, Tennyson; 2nd, Lawrence Crawford, Olin Creek.

Class 16—Number of entries, 1; 1st, Dora Spears, Heath Creek.

Class 21—Number of entries, 10; 1st, Gordon Crawford, Olin Creek; 2nd, Emily Carmelo, Tennyson; 3rd, Dora Day, Tennessee.

Class 23—Number of entries, 1; 1st, Grace Kebasek, Willow Valley.

Class 24—Number of entries, 1; 1st, Forni Lekusk, Firgrove.

Class 25—Number of entries, 3; 1st and 2nd, Ruby Fink, Tennessee; 3rd, Joe Kubasek, Willow Valley.

Judge of vegetables and grains, W. Robinson.

Class 27—Number of entries, 2; 1st, Barbara Bundy, Cowley; 2nd, Ruby Fink, Tennessee.

Class 28—Number of entries, 1; 1st, Jimmy Gunn, Cowley.

Class 30—Number of entries, 3; 1st, Muriel Marlow, Cowley; 2nd, Rosie Percivault, Cowley; 3rd, Mary Percivault, Cowley.

Class 34—Number of entries, 2; 1st, Billie Burles, Olin Creek; 2nd, May Vroom, Coalfields.

Class 35—Number of entries, 5; 1st, Ray Cleland, Tanner; 2nd, R. Percivault, Cowley; 3rd, Mary Chiesa, Coalfields.

Class 36—Number of entries, 4; 1st, Mathison Kropinak, Willow Valley; 2nd, Muriel Marlow, Cowley; 3rd, Ivan Cleland, Cowley.

Class 37—Number of entries, 3; 1st, Makarin Kropenack, Willow Valley; 2nd, Vera Tench, Tennyson; 3rd, Mary Percivault, Cowley.

Class 38—Number of entries, 3; 1st, Vera Tench, Tennyson; 2nd, Mary Percivault, Cowley.

Class 39—Number of entries, 2; 1st, Muriel Marlow, Cowley.

Class 40—Number of entries, 1; 1st, Muriel Marlow, Cowley.

Class 41—Number of entries, 3; 1st, Marjorie Cleland, Tanner; 2nd, Muriel Marlow, Cowley; 3rd, Anna Chiesa, Coalfields.

What would it cost to replace your farm buildings if they burned?

Or your stock if they died?

Or your crop if it were "hailed out"?

Or
YOU if THAT happened?

YOU are more valuable than buildings, implements, stock and crops put together. What is your REPLACEMENT VALUE?

You pay your farm helper from \$50 to \$100 a month—and board.

Are you worth that much?

You can take out a life assurance policy to provide \$50,000, \$75,000, \$100,000 a month or more in case of your death.

This will provide the wage of a hired man at least, and enable your family to hold on to the farm.

See the Sun Life man. He has a policy for every need.

The Progress of Little Things

These modern days when it is "the thing" to boast about the bigness of this and that, and when countries and cities lay claim to the possession of the biggest of something or other, we are apt to forget how many of these "big" things were brought about, and to lose sight of the essential fact that anything "big" is in reality only a collection or combination of many very small things.

Nowadays not so much stress is laid upon old sayings of a couple of generations ago, such, for example, as "Mighty oaks from little acorns grow!" nor do we stop to contemplate that this globe on which we live is after all made up of "little drops of water, little grains of sand."

It would be better for everyone of us if we gave greater heed and attached more vital importance to the little things of everyday life. The wealth of the multimillionaires of to-day, after all, only an unusually large accumulation of pennies and songs of the very rich men of the world laid the foundation of their wealth by careful saving of their pennies. The hundreds of millions of bushels of Marquis wheat harvested in Canada every year is the result of one little kernel developed by Dr. Saunders.

The investment of a very few dollars by the parents of a baby at the time of its birth, if left to accumulate at compound interest throughout the years of its minority, would mean a very substantial sum of money upon which to commence a career in the world by the time the child became of age.

These thoughts come to us when reading a recent article about Trinity Church, in New York City. This church, which stands at the head of Wall Street, the centre of New York's financial district, began its career 233 years ago on a precarious income derived from the flotsam and dead whales cast up by the sea along the shore where one of the world's largest cities now stands. Today Trinity Church Corporation is one of the largest holders of real estate in that city, owning \$15,000,000 of revenue producing real estate, bringing into that church almost \$1,500,000 a year. Nor do these large figures include the value of the property upon which Trinity Church itself stands, the equivalent of about two square blocks in the heart of the financial district, and conservatively valued at another \$15,000,000.

The tremendous wealth of Trinity, we read in the Wall Street Journal, would appear fantastic to the organizers of this church in 1696, when King William III made the original grant of land to the parish, supplemented nine years later by a further grant from Queen Anne. In those days the land was of no particular value, Wall Street was non-existent, and Fifth Avenue not even a foot path. But Manhattan Island was destined for great wealth, and the worthless property of a little over 200 years ago is worth many millions today.

Historical records contain efforts to obtain funds to start the church, which appear incredible when contrasted with present day values. One aid to the building of the original church in 1696 was a patent issued by the Governor of New York. It permitted vestrymen to all drift wharves, or anything else driven by the sea onto land, and for which there was no owner. It further directed that the wharves be towed ashore, fried, and pro-ceeds used for a building fund.

The lesson of this interesting bit of history is this: Today there are thousands of young people just starting out in life. They have little or nothing. With them is indeed a date of small things, and as they look around them and see so many huge undertakings, great enterprises, and the speed of the modern world, they are inclined to be discouraged, and become obsessed with the false idea that there is no opportunity for them.

But opportunities exist today as never before. There are a thousand today where there was but one hundred years ago. The beginning must be small now, as it was then, but the opportunity is there just the same, while the possibilities and probabilities of growth are many times more rapid now.

Tackle the small thing at once; save the small things, the pennies; watch for and embrace your opportunities; conserve those things which come to you. The bigger things, and the rewards of work and of service to your fellowmen will follow in due course.

Supreme In Circus World

John Ringling Purchases Five Of His Foremost Competitors

John Ringling, who started as a singing clown, rules as supreme ring master of the circus world today.

By purchase of five of his foremost competitors, involving several million dollars, the last of the Ringling Brothers has acquired control of the largest group of tent shows in the world, including their talent, menageries, equipment and winter quarters.

The shows which have been added to the Ringling group are: Sels-Flo, Hagenback Wallace Animal Show, Sparks, John Robinson's Show, and the Al G. Barnes Wild Animal Show.

"Excuse me," said the impatient man at the table to the manager, "but did the waiter who took my order leave any wife or family?"

You seldom find the name of the fellow who thinks he's "it" in Who's Who.

Boils

Dry up boils with Minard's. It's antiseptic qualities kill the poison and draw out inflammation.

W. N. U. 1803

Alberta Calves For Dakota

Alberta's Flying Rancher Received Order From North Dakota State University

George Ross, southern Alberta's flying rancher, has received an order from North Dakota state university for 1,000 calves to be distributed by the university to boys' and girls' baby beef clubs throughout the state as part of a movement to encourage more and better livestock production.

The calves will be delivered during October, and after distribution will be fed up during the winter for spring stock shows in North Dakota.

It Will Prevent Ulcerated Throat.

A dry, clean, white poultice, with white properties ulceration and inflammation, takes a spoonful of Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will draw out the poison and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Grafting Progress In Tree Planting.

The 1928 reports of inspectors of the tree plantations made on prairie farms with trees furnished by the Forest Service of the Department of the Interior from their nurseries at Indian Head and Sutherland, Saskatchewan, show that 83 per cent. of the plantations inspected were found to be in very good condition, 14 per cent. were fair, and only 3 per cent. were in poor condition.

There are five types of United States currency: silver certificates, gold certificates, federal reserve notes, national bank notes, and U.S. notes.

Story Of Privation

Tragic Case Of Two Boys Lost In Woods Of Northern Quebec

How 12-year-old Michael Courtois remained for nearly two months beside the body of his brother, René, dead from hunger and privation in the woods, and how the two of them had wandered for miles, famished and helpless, was described at Roberval, Quebec, at the inquest into the death of René Courtois, found dead in the woods of northern Quebec after having been missing since August, 1928.

Both brothers and their father furnished slender means of livelihood for a time, young Michael told the coroner's jury. They were four hundred and fifty miles from Roberval, the nearest outpost of civilization. Having but two matches, they kept a fire burning in a pall for two months. When the search party found them, the fire was still smouldering but René Courtois was dead.

Michael had almost completely lost his reason when rescued, but it is now completely restored, though he is a physical wreck.

The boys were lost when their father left them at his cabin while he undertook a hunting trip. They wandered from the camp.

The coroner's jury returned a verdict, "death by starvation and misery."

FEELING WORN OUT

When the Blood Becomes Watery a Breakdown Follows

How many girls and women suffer from headache, pain in the back or side, poor appetite, nervousness and a constant feeling of weariness and palpitation of the heart at the least exertion. Of course all these symptoms may not be present in any one case, but any of them show that the blood has become thin and watery, and blood vessels can only be regenerated by making the blood thicker. This can be done without delay. For this purpose nothing else acts so promptly and so surely as Dr. Williams' Pink Pills. Each dose is enough to enlarge blood vessels and to bring new health and vitality to weak, and often despondent people. The truth of these statements is supported by that of Mrs. Hilda King, R.R. 6, True, N.B., who says: "A couple of years ago I grew so weak I could scarcely walk across a room without help. My blood was all the time watery and I had to be carried without help. I had to give up my housework and care for my children, so you will see what Dr. Williams' Pink Pills have done for me."

You can get these pills through any medicine dealer or by mail, post paid, at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Surprised At Development

Lord Queensborough Impressed With Mining Possibilities Here

Completing a tour of Canada, Lord Queensborough, chairman of the London advisory board of Canadian Securities, Limited, stated in Toronto that he was much impressed with the mining developments going forward in the Dominion.

"I am surprised at the mining idea," he said, "of the immense mineral wealth of Canada until I went through northern Ontario, Manitoba, and British Columbia."

Lord Queensborough declared his report on investment opportunities in the Dominion undoubtedly would be favorable.

Rub It In For Lambs Back. — A brisk rubbing with Dr. Thomas' Electric Oil will relieve lambs back. The skin is usually slightly above the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liquid sinks in, the skin becomes dry and the hair stands up, giving grounds for saying that it is an excellent article.

Firebrick and Fireclay Products.

Firebrick and fireclay products are produced, both from domestic and imported clays, in Nova Scotia, Quebec, Ontario, Saskatchewan, Alberta, and British Columbia. Refractory silica bricks are also produced.

Minard's Liniment—Used for 50 years.

There is a Manchester sexton who believes in accuracy, as witness this entry: "Died, —, male; aged three months; unmarried." Which leaves no possible room for doubt.

Corns INSTANT relief! PUTNAM'S Corn Extractor

Ontario Research Foundation

Canadian Professor Will Go To Toronto To Engage In Research Work

Dr. Seymour Hadwen, research professor of animal diseases at the University of Saskatchewan, will leave Saskatoon for Toronto shortly for the Ontario Research Foundation as director of veterinary science.

This foundation is subsidized to

Jointly by a number of commercial firms in Ontario, and the Ontario Government.

The chairman is Sir Joseph Flavelle.

Dr. Hadwen, who has been in charge of the veterinary research at Saskatoon since the laboratory for this purpose was opened, comes from Manchester, England. His research work on the effect of sunlight on white animals and the susceptibility of white cattle to attacks by parasites have attracted attention among scientific men and stock breeders. He has also made interesting discoveries with regard to the cause and method of the change of colour of the fur of wild animals in winter.

Relief Of Unemployment

Manitoba To Provide Public Works For the Winter Months

A \$72,000 construction program to be carried out in Manitoba during the coming winter was announced by Premier John Bracken, as a means of relieving the unemployment situation. At the same time, action was taken to have the Dominion Government and cities and towns in the province follow a similar course with regard to the creation of organizations that raise money in view.

The work to be done will include construction of a new unit at the Selkirk Mental Hospital, at a cost of \$225,000; building of the first section of the trans-Canada highway east from Whitehead towards the Ontario boundary, at a cost of \$200,000; and completion of the new provincial jail near Headingley, at a cost of \$300,000. Appropriations for the works were passed by the legislature at its last session.

The work to be done will include construction of a new unit at the Selkirk Mental Hospital, at a cost of \$225,000; building of the first section of the trans-Canada highway east from Whitehead towards the Ontario boundary, at a cost of \$200,000; and completion of the new provincial jail near Headingley, at a cost of \$300,000. Appropriations for the works were passed by the legislature at its last session.

Highway To The North

Stefanson Favours Road From The Pas To Northern Points

Returning from a trip to Churchill, Dr. V. Stefanson, famous explorer, declared he stood ready to give all the aid he could in the attempt to have a highway connecting The Pas and northern points with the roads of the continent.

Enlisting himself as an advocate of a highway to the north, the famous explorer declared that it would be "another step in the opening of the north, a logical advance of civilization and another blow to the old prejudices that the north is desolate and worthless." He declared that a road into the northern country would "add ten-fold to Western Canada's attractions as a tourist haven."

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites damage the stomach, the intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from the mother's Worm Powder, by destroying a worm, or curing their faults of the digestion and serve to restore the organs to healthy action.

Commissioner Of Lands

J. W. Martin Is Appointed To Position In Federal Department

J. W. Martin has been appointed commissioner of Dominion Lands in the Department of the Interior, succeeding the late J. G. Greenwood. Mr. Martin has been acting commissioner since Mr. Greenwood died about a year ago.

Mr. Martin, who was born in Goderich in 1879, has been in the department many years. He was secretary to the commissioner who negotiated treaty No. 6 with the Indians of the Peace River district. In 1903 he was Dominion lands agent at Lethbridge; in 1907, assistant inspector of dominion lands at Medicine Hat; in 1910, inspector of land agencies, Calgary; 1927, acting superintendent at Edmonton. He came to Ottawa as assistant to Mr. Greenwood in 1928.

Wifey (to returning hubby)—And in you dare look me in the face?

He—Syes, dear! (hic) you shee one gets used to most. (hic) any-

thing.

Halley's comet has a record dating back to 240 B.C., and visitations—spread alarm and consternation throughout Europe during the Middle Ages.

Japan produces more feature motion pictures than any other country according to the U.S. Department of Commerce.

Mrs. Speaks—And must our country stand with her arms folded and her hands in her pockets?

Kill that corn with Minard's Liniment.

Your Kids Need Sugar

It supplies body fuel for the energy that keeps them going and growing. No need to stuff or get fat and lazy.

Use WRIGLEY'S for sugar and flavor, and see how ruddily the boys and girls respond.

It's the new science of health-building. Try WRIGLEY'S yourself and stay thin.

Population Of Australia

Commonwealth Statistician Shows Increase During the Past Year

The population of Australia at December 31, last, was 6,336,786, an increase during the year of 1928, of 101,932, according to figures compiled by the Commonwealth statistician. The corresponding estimate for New Zealand was 1,466,952, showing an increase of 16,862.

The state of New South Wales has a population of 2,405,280; Victoria state 1,760,889; Queensland, 916,639; South Australia 579,348; Western Australia 405,873; Tasmania, 216,563.

The population of the six capital cities of Australia now totals 3,018,248.

Asthma Is Torture. No one who has a great need for breath in the passing of asthma, knows what such suffering is. Thousands do know however, from experience, how inexpressible is the relief provided by that simple remedy known as Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Millions Spent On Hotel Buildings To provide additional accommodation for visitors to Canada, new hotels just completed, or in course of erection in different cities of Canada represent a total cost of over \$32,000,000.

Blood passes through the heart at a rate of about seven miles an hour.

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

ISLAND COLONY FOR DOUKHOBORS IS NOW PROPOSED

Victoria — Fanatical Doukhobors from all over Western Canada, including those who have been making trouble in interior British Columbia, will be placed in a prison colony, probably on Darby Island, in the Gulf of Georgia, between the mainland of British Columbia and Vancouver Island, if the Federal Government accepts plans laid before it by the Provincial Government.

The scheme, it was revealed, has been placed before Hon. J. H. King, Federal Minister of Health. He will discuss the matter with his colleagues on his return to Ottawa.

The proposal that Doukhobors who refuse to obey Canadian laws be removed to a colony by themselves, where they will have no contact with law-abiding members of their sect, is advanced by the Provincial Government in the belief that the whole Doukhobor problem is a Federal issue. The Doukhobors, it is explained, were brought here under contract by the Federal Government.

As Doukhobor colonies exist in Alberta and Saskatchewan, as well as in British Columbia, no single Provincial Government, it is pointed out, can adequately deal with them.

Darby Island is suggested as a suitable place for the proposed colony, because it is isolated and escape from it is almost impossible.

The Provincial authorities feel that the fanatical members of the Russian sect should not be placed permanently in a penitentiary. Some less stringent form of imprisonment is suggested, however. On Darby Island, or some similar place they would be allowed comparative liberty, and would be able to engage in agriculture. After being there for a time it is hoped they would agree to embrace Canadian customs.

Find Lost Aviator

Rescued in Northern Manitoba After Wandering in Bush For 16 Days

The Pas, Man.—After wandering 16 days in the wilds of northern Manitoba, during which time an intense search by air and land was made for him, C. F. Mews, young aviator, was discovered by V. Young, a prospector, some 30 miles west of Oxford House, just when searchers had virtually abandoned hope of finding him.

Mews is little the worse for his experience. He is somewhat thin and haggard, having lived principally on berries, which are plentiful in the north this season, and he expressed confidence that he could have made his way to Oxford House, had not Partridge picked him up. His clothes were in tatters as a result of scrambling through the thick brush.

The youthful flier, who is a pilot for the Northern Aerial Mineral Exploration Company, was lost on August 24, when forced to land near Knee Lake owing to lack of fuel. He remained with his machine for two days, hoping that his companions would be able to spot him from the air and come to his assistance.

When aid did not arrive, Mews decided to set out for Oxford House, 70 miles as the crow flies from the place where he landed. The bush, however, is very thick throughout the territory and the country is dotted with lakes, making travel by foot extremely hard. It is estimated that he walked over a hundred miles in attempting to reach his goal.

Montana planes were sent out to hunt for him and Indian trackers took up his trail, being guided by occasional foot-tracks and plucked berry bushes. When Mews was found the Indians were only 12 miles behind him, and probably would have found him in two days' time if he had not been seen from the air.

Heads Grain Exchange

Winnipeg.—William A. Murphy, vice-president of the Reliance Grain Company, Limited, was elected president of the Winnipeg Grain Exchange, succeeding James A. Crowe, who retired. Mr. Murphy was elected by acclamation. A. P. White, of the firm of Clark and Martin, and Ernest S. Parker, were elected vice-presidents.

Alberta Wheat Pool

Calgary, Alberta.—The Alberta Wheat Pool now owns 430 elevators spread over the length and breadth of the province. This is an increase of 135 over the number operated last year. The Pool now has facilities to handle approximately 90 per cent of all Pool wheat.

W. N. U. 1803

Makes Important Discovery

Young Scientists Starries American Chemical Society With Demonstration

Minneapolis.—The splitting of a supposedly indivisible element, hydrogen gas, in two substances, was demonstrated to the American Chemical Society here.

It was called the "greatest scientific discovery of 1929," by Dr. Hugo S. Taylor, of Princeton University, chairman of the session.

Dr. R. F. Bothoefter, a young German, who was a 17-year-old infantryman in the front-line trenches at the close of the world war, is the discoverer.

Dramatically he set his proof before the eyes of the chemists in a spot of light upon the wall of a University of Minnesota lecture room. Like a moving finger it wrote the forecast of a revolution in physical chemistry. This revolution was described enthusiastically by Dr. Taylor.

"It opens the way to finding an entirely new species of molecule. It is the first proof of something forecast mathematically by the new wave mechanics. It means that our texts on physical chemistry will have to be re-written."

The discovery has no present commercial use, but the new world in chemistry it seems to open is very important.

Forecast Dominion Election

Hon. Robt. Forke Says Elections May Be Held Within A Year

Winnipeg.—Within 15 months—and probably within a year—a Dominion election will be held, was the forecast of Hon. Robert Forke, Minister of Immigration, speaking before the Winnipeg Liberal Association here. The Dominion minister declared that the Liberal party would make gains in the Maritimes. Manitoba, he said, would be the keystone province.

"Why pay people to come to this country?" said Mr. Forke. "Canada is a good enough country for people to come to of their own volition."

The matter of assisted passages requires very serious consideration, the minister continued. This he intended to cut some of the assisted immigration afforded in the past.

No immigrant who paid his own passage has been deported, Mr. Forke pointed out, but all discontented immigrants sent back to Britain have come out under the assisted passage plan. "I still believe that there is room for everybody in Canada, but we want them to come here only when we can absorb them," he declared.

Jury Makes Recommendation

Unable To Establish Origin Of Fatal Winnipeg Fire

Winnipeg.—Stating that it was unable to definitely establish the origin of the fire that destroyed the May Court on September 1, with the loss of nine lives and more or less serious injuries to 10 persons a coroner's jury which has investigated the disaster has expressed the opinion that the building was not adequately equipped with means of escape in case of fire.

The jury recommends that proper authorities forthwith have a thorough investigation made of all buildings of three stories or more used as residences by three experts, including the fire chief, to secure their unbiased opinions and make recommendations for more adequate protection when necessary of occupants in case of fire.

Yukon Parcel Post

Service To Be Suspended During the Winter Months

Calgary.—Parcel post to the Yukon will be suspended during the season of closed navigation on the Yukon River, which extends approximately from October 1 to May 21.

During this period mail addressed to the Yukon will not be accepted unless directed to Champagne, Carcross and White Horse.

Permission to convey such mail as is offered by the public for carriage via air service from Prince George, B.C., to the Ingenika River area in Northern British Columbia, has been granted to the Western Canada Airways of Winnipeg.

Special stickers will be sold by the company in payment of the special charge for air carriage.

Steamship Disaster

Helsingfors, Finland.—The number of persons missing in the Kurup steamship disaster is officially stated to be 120, while an unofficial estimate is 145. Only 45 bodies have been recovered.

Doukhobors Sent To Jail

Fifty-Nine Members Of Sons Of Freedom Are Sentenced

Regina.—Ninety-six Doukhobors, men, women and children, self-styled Sons of Freedom, have been sent to Prince Albert. Of this number, 59 have been sentenced to serve six months in jail, while the remainder, consisting of 37 juveniles, 20 boys and 17 girls, will be handed over to the children's welfare bureau at Prince Albert.

Thirty-four women who disclosed two miles east of Mikado on the highway, pleaded guilty of charges of indecent exposure. Two women and 23 men were convicted on a vagrancy charge, while no charge was laid against the juveniles.

Soviets To Stay Out

Will Not Participate In Plans For An Economic United Europe

London, Eng.—An Exchange Telegraph despatch from Riga states that the Russian foreign commission had declared the Soviet Union did not intend to participate in plans formulated at Geneva for an "economic united states of Europe."

The despatch said the Soviet proposed schemes "tending to estrange Europe from America" and desires to remain neutral in the forthcoming economic struggle between the two continents.

STATE CONTROL SUGGESTED FOR BROADCASTING

Ottawa.—Radio-broadcasting in Canada should be controlled and operated by a government-owned company. This is the effect of the chief recommendation of the royal commission which presented its report to Hon. P. J. C. Carson, minister of marine and fisheries.

The company would have somewhat similar relations to the Dominion Government as the Canadian National Railways has, but would be distinct from that organization. It would have 12 members, three representing more particularly the Dominion Government, and one representing each of the provincial governments. The members of the commission were Sir John A. Lord, Toronto, chairman; Charles A. Bowman, Ottawa, and Dr. Augustin Frigon, Montreal.

The recommendations provide that the task of supplying the programs will fall upon the provincial representatives of the company.

The present owners of broadcasting stations would be reasonably compensated when their plants were taken over by the government. The recommendations necessary for the organization and maintenance of the service should be met by license fees, rental of time on stations for programs employing indirect advertising and a subsidy from the Dominion Government.

High-power stations should be erected across Canada. As a nucleus to the publicly-owned service, seven 50,000-watt stations should be provided to give a good reception over the entire settled portions of the Dominion.

In making public the report, Mr. Carson said he was well satisfied with the commissioners and their work.

The report will be submitted first to the technical officers of the department. Later it will go before the cabinet. To put the recommendations into effect would necessitate important legislation.

Represent 100 Years of Service

Harry Saunders (left), engineer of the special Canadian Pacific Railway train that recently took E. W. Beatty, president of the railway, and several directors on a tour of the Maritime Provinces, and Charles Henderson, conductor on the train, represent between them just over a hundred years' service with the company. Mr. Henderson has put in 53 years of service, making him the dean of C.P.R. engineers; Mr. Saunders has a record of 45 years' railway service.

IN AIRPLANE CRASH

Lady Mary Heath, White English aviatrix, was seriously injured in an airplane crash at Cleveland. Her condition is reported as favorable.

Send Message To His Majesty

Business Men Meeting In Edmonton Send a Message Of Greeting

Edmonton.—A message of greeting from the 300 business men from all provinces, and representatives of five of the leading chambers of commerce of Great Britain, together with members of the Mother of Parliaments, was sent to King George at the opening of the fourth annual convention of the Canadian Chamber of Commerce. The message, signed by the president, William Birks, conveyed to His Majesty the rejoicing of the business over the improvement in his health.

Messages of greeting from the Governor-General; Rt. Hon. Ramsay MacDonald, prime minister of Great Britain; Rt. Hon. W. L. Mackenzie King, prime minister of Canada; Lord Passfield, secretary of state for the dominions; Lord Israels, president of the Federation of Chambers of Commerce of the British Empire, and from the premiers of various Canadian provinces, were read.

"It is the very earnest and confident hope of myself and of all my colleagues that the remarkable progress of Canada may continue at a rapid rate; and that the free, the happy and the mutually advantageous association which unites her with Great Britain may be strengthened," said the prime minister of Great Britain in his message.

International Balloon Race

Ten Entries For The Gordon Bennett Event To Be Held Soon

St. Louis, Mo.—Ten balloons, representing the United States, France, Germany, Belgium, Denmark and the Argentine, will soar away from St. Louis, September 28, in quest of the international Gordon Bennett trophy. It will be the eighth of the international balloon races and the third to start from St. Louis. Seven of the races have been won by the United States, and five by Belgium, which gained permanent possession of the original Gordon Bennett trophy with its third straight victory in 1924.

The United States became permanent possessor of the second trophy with victories in 1926, '27 and '28. Now the third of the Gordon Bennett trophies is up, with three U.S. airmen seeking to gain the first leg on it.

Dress Reform Movement

Combination Trousers and Skirt Suggested For Universal Use

London, Eng.—The dress reform movement broke into the congress of the World League for sex reform on a scientific basis when a combination of trousers and skirt was suggested for universal use.

Dr. J. C. Lugel, of England, addressing the delegates of 11 countries, said that men possibly will adopt skirts and women trousers in the future, or more likely there will be a uniform combination for both sexes. He urged creation of a new mode of dress which would incorporate the advantages for both.

MacDonald May Sail On 28th

New York.—In a special cable from London to the New York Times, the London Daily Express is quoted as saying that Premier Ramsay MacDonald has definitely decided to sail for the United States on September 28.

Study Wheat Prices

Washington.—Investigation of the

disparity between Canadian wheat prices and the prices of wheat in the Northwestern States, together with a study of the whole subject of grain storage facilities, has been initiated to sail for the United States on September 28.

Answering the Liberal demand for

electoral reform, the report says this

climax never was heard when the

Liberal party was struggling for

existence.

The affiliated membership of the

Wheat Pool

reported from northeast and central

Saskatchewan is

the 10th

and 11th districts.

On a 200-acre field of Marquette wheat

he threshed 42 bushels per acre. It

was No. 1 hard. Mr. Wicket has

1,000 acres of wheat which is run-

ning from 35 to 40 bushels to the

acre and is all grading No. 1. Up

until this morning the Rosetown dis-

trict has shipped 15 carloads of

wheat which graded No. 1.

ANGLO-AMERICAN NAVAL ACCORD EXPECTED SOON

London, Eng.—Official announcement that Premier Ramsay MacDonald would sail on September 28, for the United States, to visit President Hoover, was hailed here as definite evidence that the two governments had virtually reached an agreement upon naval disarmament.

Well-informed circles indicated that a question involving three cruisers of the eight-inch class is the only point upon which full accord has not been reached.

The developments came swiftly after a conference between Mr. MacDonald and Charles G. Dawes, United States Ambassador. Just previous to this conference, announcement had been made that the United States' answer to the latest British proposals had been received in London. It was assumed that Mr. Dawes carried this answer to No. 10 Downing Street, when he called on the Premier.

The two were closeted for an hour. The official date for Mr. MacDonald's sailing was announced immediately after the Ambassador had departed.

It was just such "conversations" as this which have marked the discussions since the Ambassador dashed from the steamer which carried him to England and had his initial meeting with Mr. MacDonald at Loughborough on June 16. By the middle of August certain preliminary conclusions had been reached which were tentatively submitted to Washington. The recent answer from the United States completed what many believed was the most important step for agreement.

Maintain Palestine Mandate

Great Britain Will Not Depart From Present Policy

London, Eng.—Lord Passfield, Secretary of State for the Colonies, informed a deputation of Jews representing the Jewish Agency and the Zionists, that there could be "no question of the British Government's giving up the mandate for Palestine, or departing from the policy embodied in the Balfour Declaration of establishing in Palestine a national home for the Jewish people."

The Palestine-Arab executive in a note issued by its chairman denied rumors prevalent among Moslems in northern Palestine to the effect that Jews had damaged the mosque of Omar by bomb attacks. The police called upon all Arabs to keep the peace.

Forty-Two Bushels Per Acre

Saskatoon.—The best wheat yield reported from northeast and central Saskatchewan is that of Henry Wicket, Rosetown, district. On a 200-acre field of Marquette wheat he threshed 42 bushels per acre. It was No. 1 hard. Mr. Wicket has 1,000 acres of wheat which is running from 35 to 40 bushels to the acre and is all grading No. 1. Up until this morning the Rosetown district has shipped 15 carloads of wheat which graded No. 1.

Largest Western Port

Vancouver—According to figures obtained by Canadian Pacific Steamships, Limited, the Port of Vancouver now ranks first among the ports of the Pacific coast. Outshippings of San Francisco and Los Angeles in volume of inward and outward traffic and tonnage of exports and imports with a total of 9,897,787 tons of food imported into and exported from Vancouver in 1928, it surpasses all competitors, the nearest in line being Seattle.

Fanatic Behind Bars

Vancouver, B.C.—Chanting the weird Russian songs of their religion, 104 men and women with seven children, members of the Sons of Freedom sect of the Doukhobors, were quietly detained at Essondale, near New Westminster, and taken in buses to Okanagan jail, where they began to serve sentences of six months for indecent exposure imposed at Nelson, B.C. The Doukhobors were arrested at South Slocan on August 29, after staging a nude parade.

Ward Disarmament Conference

Geneva.—The League of Nations was called upon by the Irish Free State to convene a general disarmament conference of the powers. Patrick McMilligan, foreign minister of the Free State Government, made the proposal. He expressed regret that 11 years after the close of the great war so little had been done to remove the weapons of war.

Red Deer has a school enrollment of 670.

The front of McBurney's drug-store at Coleman is receiving a coat of stucco.

Hon. Evan Morgan spent a few days in Edmonton last week and later joined the Chamber of Commerce party in Calgary.

A splendid specimen of Rocky Mountain sheep was brought from the North Fork country on Sunday, secured by Joe Christie, of Bellevue. Christie has only one arm with which to handle a rifle and has proved himself quite capable and a crack shot.
